EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest immersing the titanium in a second bath comprising titanium dioxide and deionized water, as in the context of claim 16. The closest prior art, Hinson (U.S. Patent No. 5,705,082) discloses a method of etching titanium comprising: immersing the titanium in a first bath comprising hydrochloric acid, phosphoric acid and hydrofluoric acid (column 3, lines 12-14). Moreover, Yoshida et al. (U.S. Patent No. 5,451,271) teaches that treatment of aluminum metal with titanium oxide and deionized results in inferior corrosion resistance and adherence characteristics (column 1, lines 47-59). However, there is no motivation or suggestion of immersing the titanium in a second bath comprising titanium dioxide and deionized water, as in the context of claim 16.
